What is fractional or shared ownership?

Shared ownership is a smart and cost effective way to own. Shared ownership allows the full cost of a waterfront property and a cottage to be equally distributed amongst a group of owners. At Inaski, there are ten shares per cottage. Owners may own single or multiple shares in one or more cottages.

Why is shared ownership superior to full ownership?

Cottage ownership can be an expensive proposition. A waterfront cottage can be a sizable investment and the carrying costs of mortgaging your cottage can make it out of reach. Along with the costs of purchase are the operating costs of property taxes, ongoing maintenance, insurance, etc. As well, even though the costs of full ownership continue 12 months out of the year, few people can actually enjoy their cottage for more than a limited time period. With shared ownership you only purchase the time you actually spend at the cottage.

Can I rent my unit to family, friends or to the public?

Yes, you have the option to loan or rent your cottage or swap weeks between other owners.

Are pets allowed?

Three cottages at Inaski are designated pet friendly and three others are designated pet free.

Can other owners smoke in my unit?

All the cottages are designated non-smoking at all times.

How are property management decisions made?

The Association, the Inaski Shores Owners Association, and its Shareholders, own the property and its buildings. All decisions regarding the property and cottages will be made by you and your fellow owners through your Board of Directors.

What is included in the Annual Maintenance Fees?

All the costs to operate and maintain your cottage including all taxes, insurance, refurbishment reserve, property management, garbage removal, lawn maintenance, landscaping, snow removal, house-cleaning, internet, phone, heat and hydro.

How are Fixed Summer Weeks calculated? Our Fixed Summer Season is, *"the ten (10) consecutive week period ending on the Friday immediately preceding Labour Day each calendar year"*.

Fixed Summer Weeks @ Inaski; What does this mean?

When owners purchase an 'interval' at Inaski, they are purchasing a 1/10th investment in a specific Cottage. Their 1/10th investment provides them access to their Cottage for 5 weeks each calendar year, one in each of the ten-week Inaski seasons [Spring, Summer, Fall, Winter and Additional]. Two maintenance weeks each year, one in the spring and one in the fall make up our 52 week annual calendar. During maintenance weeks, cottages remain empty and major interior and exterior annual maintenance occurs. Four of each owners' intervals float each year; selected through a fair and equitable selection process (in early fall each year for the following year). Fair and equitable in that if your interval share had 10th pick for one particular season in one particular year, you'd received 1st pick in the following year; and so on. Owners' Fixed Summer Week however always remains permanently fixed to fall at the same time each year, forever, calculated in advance of each year based on how the calendar falls, whereby our ten Fixed Summer Weeks are *"the ten (10) consecutive week period ending on the Friday immediately preceding Labour Day each calendar year"*.
